

AUTO LOAD LOGIC IS A COMPLETE AND INTEGRATED AUTO TRANSPORT SOLUTION FOR SHIPPERS, BROKERS, AND CARRIERS.

THE BROKER SOLUTION

EASY. FAST. EFFICIENT. COST EFFECTIVE.

USE AUTO LOAD LOGIC TO AUTOMATE & SAVE

Brokers need to manage the demands on both ends of the transaction. Auto Load Logic offers a single automated process fully integrated with shippers and carriers. How?

- 1.** We connect you to shippers and carriers with automated bidding and communication tools. Everything you need to close a deal is available online 24/7. Automated dispatching capability allows your office to be operating, making money for you, even after hours and on weekends.
- 2.** We streamline the contracting process with e-signatures and put report and authority documentation online for easy access and management. Electronic bills of lading including photo inspections reduce risk of dispute and provide solid evidence of condition on pick-up and delivery.
- 3.** Track your shipments online from pickup to delivery. Yes! Real time GPS tracking allows you and your staff to dramatically reduce the time and expense of making and answering calls trying to verify the status and location of your shipments.

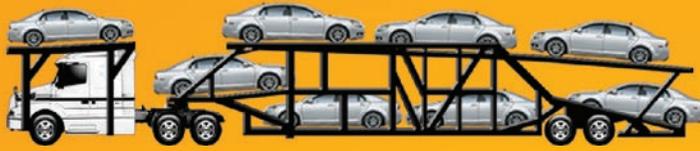

IT'S TIME TO RETHINK AUTO TRANSPORT.
EASY. FAST. EFFICIENT.

**AUTO LOAD
LOGIC**
AUTO TRANSPORT REDEFINED

The ALL system is VIN based, eliminating the confusion created by other systems that rely on make, model and year. No more cases of multiple posting of loads or multiple contracting. If it's your transport contract, no one else will be posting it also.

How much time do you spend trying to find a carrier in the vicinity of a load you need moved? Our system lets participating carriers allow you to track their locations. You'll see who is available to move your load rather than wasting time hunting for carriers.

Want to provide a special benefit to a customer that you're shipping a vehicle to? For a nominal charge you can provide your customer the ability to track the shipment themselves. Fewer calls that you'll have to answer! ALL is accessible on any size device: desktop, laptop, tablet or phone. Our mobile site and mobile apps are available on both iOS and Android platforms. There is no cost to register as an ALL user and no fees are charged until you actually contract to ship vehicles using the system.
