

**AUTO LOAD LOGIC IS A COMPLETE AND INTEGRATED AUTO TRANSPORT SOLUTION FOR SHIPPERS, BROKERS, AND CARRIERS.**

# THE SHIPPER SOLUTION

**EASY. FAST. EFFICIENT. COST EFFECTIVE.**

## The process is as simple as **1, 2, 3!**

**1.** Shippers simply request quotes for one or more vehicles. ALL provides Shippers a variety of methods to request prices for their transport needs, including specific requests directed to trusted brokers and carriers as well as more general requests from the entire network or a defined number of service providers.

**2.** Select the best service provider based on ratings, reviews and price. You have access to ratings and reviews and the ability to correspond via our internal messaging system to respond to price proposals.

**3.** Track your shipment online from pickup to delivery. Yes! Real-time GPS tracking allows you and your staff to dramatically reduce the time and expense of making and answering calls trying to verify the location of your loads.

IT'S TIME TO RETHINK AUTO TRANSPORT.  
**EASY. FAST. EFFICIENT.**

AUTO TRANSPORT REDEFINED

The ALL system is VIN based, as yours is, eliminating the confusion found in other systems that rely only on make, model and year. Our system provides an end-to-end, paperless contracting facility using e-signatures and electronic document production. Photo inspections and electronic bills of lading reduce the potential for disputes about condition and damages en route.

**Want to provide a special benefit to a customer that you're shipping a vehicle to?** For a nominal charge you can provide your customer the ability to track the shipment themselves. Fewer calls that you'll have to answer! ALL is accessible on any size device: desktop, laptop, tablet or phone. Our mobile site and mobile apps are available on both iOS and Android platforms. There is no cost to register as an ALL user and no fees are charged until you actually contract to ship vehicles using the system.
